Southern West Atlantic: exploration outlook

Panel I - Exploring South Atlantic Conjugate Margins - Recent Discoveries and New Frontiers: Southern Segment I

Pablo Gristo Savornin

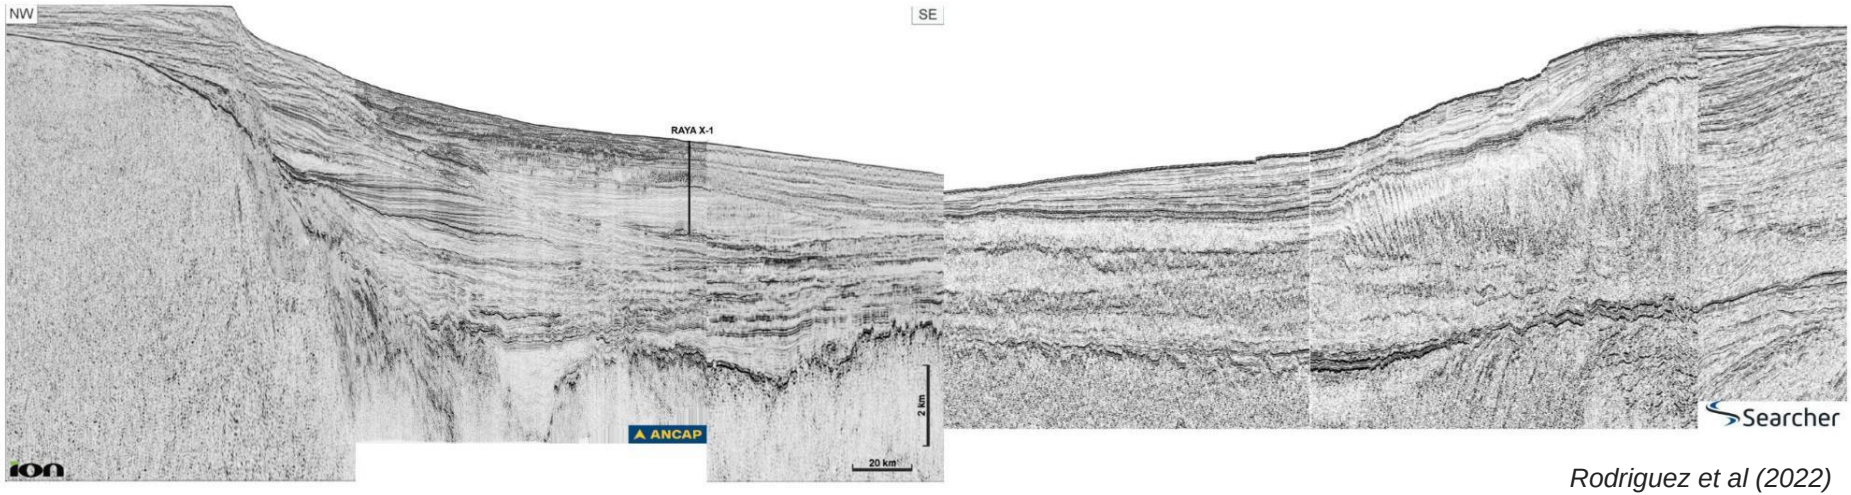
Exploración y Producción, Gerencia de Transición Energética, ANCAP

20th November 2024, Punta del Este, Uruguay

Southern west Atlantic

~ 200,000 km^2 under exploration offshore Argentina, Brazil and Uruguay

Why so much interest?



Rodriguez et al (2022)

Source rock (Barremian/ Aptian age) proven in Orange basin (Namibia) and very likely to be present in the Southern west Atlantic basins.
